When someone in the Stakeholders panel is selected as a collaborator, a panel appears on the right of the canvas that defines a new type of review. This panel alerts you to who is invited and to whom you're going to share access. Your contribution to collaborative review is also highlighted in the new Account Placeholders panel at the bottom of the canvas. This panel displays placeholders that have been assigned to you or to one of your collaborators. You can click the pencil icon to reassign a placeholder if you no longer need it. While using review tools, you also have the option to share the current project with others. If you chose the first option, the new project version will be auto-discarded. If you want to get the absolute best photo-editing software for a specific photos and videos on your PC, this is it.
